

# A very ineresting result

Jesse Knight

August 17, 2023

## 1 Introduction

### 1.1 Background

In the beginning ...

A new paragraph within Section [1.1](#).

And another [\[1\]](#).

## 2 Methods

Let  $x = \sum_i x_i$ . In [\(1\)](#), we see that ...

$$y_i = \sum_{ij} \beta_j x_j^2 \tag{1a}$$

$$= \begin{bmatrix} a & b \\ c & d \end{bmatrix} \tag{1b}$$

$$= 2\pi \tag{1c}$$

## 3 Results

In Figure [1](#), we see ...
